## **Building a Better Future In Ferguson, MO**

(Ferguson, MO) Improvements are being made all throughout the city of Ferguson each and every day. A more recent example of this can be seen in the construction of a brand new loft apartment complex on 235 S. Florissant Rd.

Formerly a Kawasaki dealership, the S. Florissant building is currently being renovated with two additional stories.

This will create a total space of 33,000 square feet. In addition, the development will add two levels of loft and live/work style residential units within the vertical addition. This addition will include three commercial spaces as well as 23 apartments that will consist of one and two bedroom units.

This new complex will be conveniently located in Ferguson, giving its residents easy access to local businesses. This loft complex will represent city-wide efforts to not only improve infrastructure but to beautify and aesthetically enhance the Ferguson community.

By combining modern styling with classic architecture, the new loft apartment complex will provide its tenants with luxurious style living spaces. "This new complex is a testament the city's goal of constant improvement," said De'Carlon Seewood, Ferguson City Manager.
