

Maline Greenway

West Florissant Ave to Bella Fontaine Park West

About Great Rivers Greenway (GRG)

GRG is a public agency created by public vote in 2000 to fund parks and greenways.

GRG is governed by a 12-member Board of Directors and led by a staff of 40. There are more than 135 miles of greenways and counting!

Greenways are paved trails where people can walk, run bike, use a wheelchair or push a stroller.

Right now, the Maline Greenway is in Bella Fontaine Park (pictured). This project will extend the Maline Greenway from Bella Fontaine Park to West Florissant Avenue.

How are greenway locations chosen?

GRG's goal is to connect three areas (St. Louis City, St. Louis County and St. Charles County) with a 600-mile network of greenways. Greenway locations are chosen through planning processes that consider connections to community amenities, physical conditions, and public input, among others.

Who takes care of greenways?

Greenways are maintained in collaboration with municipal partners, like the City of Ferguson and St. Louis County.

How do I participate?

Come to pop-up events, take surveys, attend neighborhood meetings, and/or join the Community Advisory Committee!

You can also contact Marla G. McDonnell, Civic Engagement Manager, at 314-655-1316 or mmcdonnell@grgstl.org

Why am I receiving this information?

You are a resident or own property near the new Maline Greenway extension and your input is important!

The new trail will be constructed on the pink line through the publicly-owned Utility Corridor. Tell us what amenities you would like to see on your greenway!

FALL 2022-23

15% DESIGN

WE ASKED THE COMMUNITY

From Fall 2022-2023, we talked with hundreds of residents.

YOU TOLD US

- You want the greenway option that feels “open” and has good visibility.
- You want connections to parks. This greenway will connect to Bella Fontaine Park and Forestwood Park.

- You prioritize safety. Lighting, emergency call boxes, and safe road crossings are vital.
- You want the greenway to honor history, celebrate community, and help people to enjoy nature.

WE ARE HERE!

30% Design

- We determined a final plan after studying floodplains, traffic patterns, and physical conditions and incorporating community input.
- Now, we are reaching out to greenway neighbors and the surrounding community!

We want to know the amenities you want along the greenway!

Does your property touch the future Maline Greenway?

Great Rivers Greenway is committed to working with residents and property owners whose properties will touch the Maline Greenway.

You are invited to attend a virtual neighborhood meeting on Zoom on Monday, November 18 at 6pm to receive project information and provide feedback on greenway safety features and amenities.

Registration is required.
